

Oil for air-cooled 2-stroke gasoline engines. Suitable for machines where the reservoir is filled with a mixture of gasoline and oil, and for those with separate reservoirs. This oil is easily miscible with gasoline and ensures a good protection of the pistons and segments from overheating.

Performance

- API: TC

Features

Engine protection : excellent engine performance.

Corrosion protection : adequate corrosion protection.

Applications

This oil is applicable for all air cooled 2-stroke gasoline engines with a dilution content of 2% (1 to 50) and 4% (1 to 25). This according to the constructor's requirements.
