

High quality special lithium complex greases suitable for high temperature operations and heavy load requirements. Operating Temperature: -30 ° C to +150 ° C.

Applications

This greases are suitable for a wide range of general purpose applications demanding EP and high temperature properties. They can be used in heavy duty wheel bearings axles, ball joints, chains, cables etc.

- ? Resistance to water washout.
- ? Excellent adhesion to metal surfaces.
- ? Maximum equipment protection.
- ? Wide temperature range of efficient operation.
- ? High resistance to extreme operating conditions.

Characteristics	Unit	Average
Density at 15 °C	kg/l	
Viscosity -20 °C	mPas	
Viscosity 40 °C	mm ² /s	
Viscosity 100 °C	mm ² /s	
Viscosity index		
Flash point COC	°C	
Pour point	°C	
Total Base Number	mgKOH/g	
Sulphated Ash	%
